

African Explosion-proof Distribution Box Manufacturer

AI Overview

Key African suppliers of explosion-proof distribution boxes include EXB Electric, Extech Safety Systems, EX Protect, and WAROM MENA, offering certified solutions for hazardous industries. EXB Electric, based in South Africa, supplies explosion-protected equipment and assemblies for petrochemical, oil & gas, and related industries. They represent Eaton Industries and CEAG GmbH, providing a wide range of flameproof and encapsulated components, including junction and terminal boxes. Their products comply with EN 60079 standards and are suitable for Zones 1, 2, 21, and 22 hazardous areas, offering high chemical resistance and reliable operation under adverse conditions. Extech Safety Systems, with offices in Johannesburg and Durban, specializes in intrinsic safety and flameproof solutions for hazardous areas. They offer certified distribution boxes and instrumentation from brands like Eaton MTL, Beka Associates, Extronics, MercuryHMI, and i.safe MOBILE. Extech provides technical support, hazardous area interfacing, and networking solutions, ensuring compliance with ATEX, IECEx, and local standards. EX Protect, established in 2012 in South Africa, manufactures and supplies low-voltage electrical equipment for hazardous areas, including distribution boxes. Their products are Ex certified, designed for high-temperature resistance (up to 250°C), and include universal power termination systems for safe and efficient installation. They focus on customized solutions and fast delivery for industrial clients. WAROM MENA, although headquartered in the Middle East, serves the African market and offers a comprehensive range of explosion-proof electrical products, including distribution boxes. They are recognized globally for IECEx and ATEX certifications, and their products are widely used in oil & gas, chemical, and industrial projects. W...
