

Angola Flame-Retardant Optical Cable

Overview

Available in both multimode (OM3/OM4) and singlemode (OS2) variants, they support configurations from 4 to 24 cores in a durable central loose tube design. Meeting stringent international standards, these cables are tested for both fire resistance (IEC 60331-25) and flame. reinforced Plastic (FRP) armouring. This brings flexibility and lower bending radius than provides a high rodent protection. These cables can operate under a wide temperature range and are waterproof. The design is reliable.
