

Are Indonesian mesh cable trays customizable now

AI Overview

Yes, Indonesian mesh cable trays are currently customizable to meet project-specific requirements. Customization Options Indonesian manufacturers offer a wide range of customizable mesh cable trays, also known as wire mesh or cable cage systems. These customizations typically include:

- Material selection:** Options include SPHC steel, stainless steel, aluminum, and FRP (Fiber Reinforced Plastic) depending on environmental conditions and load requirements.
- Dimensions and load capacity:** Trays can be tailored in width, height, and length, as well as designed to support specific cable loads for industrial, commercial, or infrastructure projects.
- Finishing and coatings:** Manufacturers provide corrosion-resistant coatings, powder coating, or galvanization to suit indoor or outdoor installations.
- Design flexibility:** Configurations can include straight runs, bends, tees, and junctions, allowing integration into complex electrical layouts.

Leading Manufacturers Offering Custom Solutions

Several Indonesian companies specialize in bespoke cable tray solutions:

- Sumber Surya Mandiri:** Offers custom-made cable trays and raceways for commercial and industrial projects, focusing on durability and project-specific design.
- Baruna Tray Indojaya:** Provides flexible, customer-tailored cable management systems for industrial and infrastructure applications.
- MNI Tray (PT Mitra Nusa Internasional):** Designs cable trays with adjustable load capacity, dimensions, and finishing to match project requirements, supporting small to large-scale installations.
- PT Surya Cakra Mandiri:** Produces wire mesh cable trays and FRP systems with customization options for material, size, and configuration.
