

Arl fluorescence spectrometer

Overview

The Thermo Scientific™ ARL™ QUANT'X EDXRF Spectrometer provides major, minor, and trace element quantification across the broadest range of samples, including bulk solids, granules, loose or pressed powders, fused beads, thin films, pastes, and liquids. Featuring standardless software and. s to improve EDXRF performance. Initially launched with the world's first Peltier cooled Si(Li) detector this benchtop EDXRF instrument has evolved into a compact, versatile and high performing instrument. Benefits over alternative methods of analysis include:. With its sophisticated platform, the Thermo Scientific™ ARL™ PERFORM'X wavelengthdispersive X-ray fluorescence (WDXRF) spectrometer offers a quick and accurate way to analyze up to 90 components in almost any type of liquid or solid sample.

Article Content

Thermo Scientific ARL QUANT

The new ARL QUANT[™] X EDXRF Spectrometer is more efficient, easier to operate, and less expensive to own, providing manufacturers and researchers across a wide range of applications a state-of-the-art

ARL iSpark Plus OES Spectrometer

Optical emission spectroscopy with ARL iSpark OES Spectrometers enables metal analysis for process and quality control of alloys and metallurgical samples.

ARL[™] QUANT[™] X EDXRF Spectrometer

The ARL QUANT[™] X EDXRF spectrometer offers the ultimate in performance, versatility and reliability of elemental analysis. Its compact desktop design, close-coupled optics and advanced electronics

ARL[™] QUANT[™] X | EDXRF Spectrometer

Supplying high performance ARL QUANT[™] X Energy Dispersive X-Ray Fluorescence (EDXRF) Spectrometer. Read more to find out complete details of the product.

ARL 9900 IntelliPower Series ARL 9900 X-ray WorkStation

The Thermo Scientific ARL 9900 IntelliPower series of X-ray spectrometers is the most capable and most versatile ever offered for process control. The key to its versatility is the patented technology

X-Ray Fluorescence Instrumentation

Fast, reliable elemental analysis—in the lab and field We offer a wide range of X-ray fluorescence (XRF) instruments designed to meet the needs of every industry. Our robust family of Thermo Scientific

ARL QUANT[™] X Energy-Dispersive X-Ray Fluorescence

With ARL QUANT[™] X Energy-Dispersive X-Ray Fluorescence Spectrometer, users can obtain composition data from virtually all kinds of samples in just a matter of

ARL[™] PERFORM[™] X Sequential X-Ray Fluorescence Spectrometer

The Thermo Scientific[™] ARL[™] PERFORM[™] X Sequential X-Ray Fluorescence Spectrometer for advanced materials characterization integrates bulk elemental analysis with mapping and small spot

Thermo Scientific[™] XRF Spectrometer-ARL

With its sophisticated platform, the Thermo Scientific[™] ARL[™] PERFORM[™] X wavelength-dispersive X-ray fluorescence (WDXRF) spectrometer offers a quick

Total oxide X-ray analysis with ARL 9900 IntelliPower Series ...

The Thermo Scientific™ ARL™ 9900 Series X-ray Fluorescence Spectrometer can be calibrated from the factory as a complete analytical package which provides the possibility to analyze a large variety

Thermo Scientific ARL QUANT

Thanks to customers input and specialists' advice the ARL QUANT™ X EDXRF spectrometer has become a complete package that includes proven hardware and an all-inclusive software in a robust design -

OES, XRF and XRD Analysis | ARL Spectrometers | | Thermo Fisher ...

ARL Spectrometers for OES analysis and XRF, XRD analysis in the lab For more than 90 years, Thermo Fisher Scientific has set the standard for elemental and structural analysis of solid, liquid and powder

Sequential X-Ray Fluorescence Spectrometer

ARL PERFORM™ X Powerful add-ons for problem solving and R& D The ARL PERFORM™ X spectrometer brings added value to your laboratory with new features for challenging non-routine analyses.

XRF Spectrometer - ARL PERFORM™ X From Thermo

Thermo Scientific's ARL PERFORM™ X sequential X-Ray fluorescence spectrometer (XRF) is a sophisticated tool for rapid and accurate analysis of up to 90

ARL X900 XRF Spectrometer | Thermo Fisher Scientific

The Thermo Scientific™ ARL™ X900 is a robust WDXRF analyzer with XRD capability that provides quick, precise elemental analysis for industrial process control.

Analysis of gold alloys with Thermo Scientific ARL PERFORM™ X

Analysis of gold alloys with Thermo Scientific ARL PERFORM™ X Series Advanced X-Ray Fluorescence Spectrometers Christopher R. Shaffer, Thermo Fisher Scientific, Ecublens, Switzerland

ARL PERFORM™ X XRF Sequential X-Ray Fluorescence Spectrometer

A New Evolutionary Platform The Thermo Scientific ARL PERFORM™ X X-ray fluorescence (XRF) sequential spectrometer presents an advanced platform for rapid and precise analysis of up to 90
