

Australian Network Cable Tray Installation Company

AI Overview

Blitz Systems, EzyStrut, Burndy CSS, Ozstrut, and PowAGroup are leading providers of cable tray systems and installation services across Australia. Key Companies and Offerings

Blitz Systems specializes in efficient cable tray solutions designed to reduce installation time, labour costs, and material waste. Their Blitz BT3 Cable Tray and accessories provide strength, versatility, and compliance with fire-rated and seismic standards, making them suitable for commercial and light industrial projects. They also offer technical support and innovative installation solutions to streamline on-site processes.

EzyStrut offers durable cable trays in pre-galvanised steel, hot-dip galvanised steel, and aluminium, suitable for both indoor and outdoor installations. They provide standard and customised solutions for high-volume or specialised projects, including fire-rated trays, ensuring compliance with Australian standards.

Burndy CSS manufactures Australian-made cable support systems and has facilities in Acacia Ridge and Welshpool. They focus on high-quality cable supports for industrial and commercial applications, providing catalogues and technical guidance for project planning.

Ozstrut supplies a range of cable trays including perforated trays for light-duty applications, T3 trays for industrial and commercial use, and T5 trays for heavy-duty installations. Their products are designed for fast installation, high load capacity, and compliance with Australian standards, including fire-rated systems.

PowAGroup provides comprehensive cable tray solutions with pre-cut rods and struts, flexible delivery, and on-site support. They assist with project take-offs, labelling, and direct engagement with trades to ensure efficient installation and accurate material management.

Considerations for Choosing a Provider

Material and Load Requirements: Select trays based on weight capacity and environmental condi...

Article Content

Network Cabling Long Island, CCTV | NYC | Manhattan | Wiring

We do the physical work of installing cable, connectors, racks, trays, cable tray systems, mounts, and much more. We use only top quality products from industry leading manufacturers. We guarantee to

Australian cabling standards

This industry standard explains the installation and maintenance practices that you must follow. It covers the requirements for fixed or concealed cabling or equipment that is connected or intended to be

Telecom, FTTH, Data Centre & Network Solutions | Warren & Brown ...
