

Botswana GYTA Optical Cable Manufacturer

AI Overview

GYTA fiber optic cables are available in Botswana through international suppliers like Huadong Cable Group and TUOLIMA, with local distributors and ICT companies facilitating delivery and installation.

Overview of GYTA Fiber Optic Cables

GYTA cables are aluminum tape armored, loose tube fiber optic cables designed for long-haul communication and LANs, offering high moisture resistance, crush resistance, and reliable performance in harsh environments. They typically feature:

- Loose tube construction with waterproof filling compounds
- Aluminum-PE (APL) armored layer for mechanical protection
- Polyethylene or HFFR outer jacket for environmental durability
- Core options from 2 to 144 fibers
- Operating temperature range: -40°C to +60°C
- Low dispersion and attenuation for high-quality signal transmission

These cables are suitable for both single-mode and multi-mode fiber applications and can be customized according to project requirements.

Suppliers Serving Botswana

Huadong Cable Group Specializes in GYTA fiber optic cables with over 30 years of production experience and 15 years of export experience. Offers custom design of cable size and specifications based on client requirements. Supplies to Botswana and other African countries, ensuring high-quality service and reliable delivery.

TUOLIMA Provides GYTA and GYTS fiber optic cables with metal-reinforced cores and water-blocking fillers. Offers customization for cable structure, laying method, and environmental conditions. Supplies professional fiber optic accessories and technical support for installation.

Local Botswana ICT and Cabling Companies While Botswana may not have large-scale GYTA cable manufacturing, local distributors and ICT service providers can source and supply GYTA cables from international manufacturers. Companies in Gaborone and Palapye provide network c...
