

Botswana produces fiber optic cable channels

Overview

Botswana Fibre Networks (BoFiNet) was founded in 2013 to focus on and improve the backbone network and internet infrastructure of Botswana. More than ten years later and the organisation has laid more than 12,400km of fibre, connecting 80% of the population. Botswana telecommunications industry owes its success to the intrepid decision and visionary leadership which found it paramount to liberalize the telco sector to create a uniform environment for all players, culminating in the conception of Botswana Fibre Networks Ltd (BoFiNet). BW TechZone spoke to Mpho Koolese, the DALLAS, March 11, 2024 (GLOBE NEWSWIRE) -- DZS (Nasdaq: DZSI), a global leader of access, optical and AI-driven cloud software solutions, today announced that Botswana Fibre Networks (BoFiNet), a leading wholesale provider of national and international telecommunications infrastructure in Africa. 6Wresearch actively monitors the Botswana Fiber Optic Cables Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help businesses to make data-backed strategic decisions with ongoing market dynamics. Liquid Intelligent Technologies strengthens Botswana's digital infrastructure with a 730km fibre extension, connecting key towns and boosting regional connectivity.
