

Cable tray elbow factory and parts manufacturer

AI Overview

Leading manufacturers of cable tray elbows include JLH Electric, Spina Group, Selco Manufacturing, and Armorduct Systems, offering a range of materials, sizes, and custom fabrication options. Key Manufacturers and Offerings

JLH Electric provides a wide range of cable tray fitting accessories, including elbows, tees, bends, and reducers. Their products are made from galvanized steel, stainless steel, aluminum alloy, or FRP, and they offer custom design and fabrication to meet specific project requirements, ensuring compatibility with various cable tray systems and industrial standards.

Spina Group (Schiavetti Tekno) manufactures industrial cable trays and accessories, including elbows and ladder tray fittings. They offer hot-dip galvanized, stainless steel, and aluminum options, with full compliance to EN and UL standards. Their systems are designed for strength, corrosion resistance, and long-term performance, suitable for energy, infrastructure, and plant engineering projects.

Selco Manufacturing supplies a variety of cable trays and fittings, including solid-bottom, ladder, ventilated, and channel trays, with corresponding elbows and connectors. They provide custom fabrications and a range of materials to ensure durability, safety, and ease of installation for industrial and commercial applications.

Armorduct Systems Ltd in the UK offers standard and bespoke cable management solutions, including steel cable trays and elbows, manufactured in-house. They specialize in custom CMS solutions for complex installations, ensuring precise fit and reliable performance.

Materials and Customization

Cable tray elbows are typically made from:

- Galvanized steel – corrosion-resistant and durable for industrial environments
- Stainless steel – ideal for high-corrosion or hygienic applications
- Aluminum alloy – lightweight and corrosion-resistant
- Fiberglass-reinforced...
