

Cable trough and ladder-type cable tray price

AI Overview

Ladder-type cable trays typically range from \$20 to \$540 per section, while trough-type cable trays range from \$73 to \$412 per unit depending on material, size, and quantity. Ladder-Type Cable Trays Ladder-type cable trays are designed with side rails and rungs to support cables while allowing airflow, which helps prevent overheating. Prices vary based on material (aluminum, steel, stainless steel), length, width, and load capacity: Small sections or short lengths: \$20–\$100 per piece (e.g., 4"–12" wide, 4–10 ft long) on eBay . Medium industrial sections: \$100–\$300 per piece for aluminum or steel trays, 12"–24" wide, 10–20 ft long . Large or specialized trays: \$300–\$540 per section for heavy-duty or long aluminum ladder trays suitable for commercial installations . Suppliers like Grainger, Platt Electric, and Legrand offer ladder trays with various fittings, elbows, and splices to customize installations . Trough-Type Cable Trays Trough cable trays feature a solid or partially enclosed bottom, providing protection against dust, moisture, and physical damage. Pricing depends on material, side rail height, and order quantity: Small to medium trough trays: \$73–\$141 per unit for carbon steel or powder-coated steel sections . High-end or polymer ladder-trough hybrid trays: \$288–\$412 per unit, with bulk discounts for orders over 200 meters . Trough trays are commonly used in commercial, industrial, and data center installations where cable protection and heat dissipation are critical . Key Considerations Material: Aluminum is lightweight and corrosion-resistant; steel is stronger but heavier; stainless steel is ideal for harsh environments. Dimensions: Width, height, and length affect both price and load capacity. Quantity: Bulk orders often reduce per-unit cost, especially for polymer or aluminum trays. Accessories: Fittings, splices, covers, and hold-down clamps add to total cost. For accurate pricin...
