

Customized Nordic Fireproof Cable Tray Manufacturer

AI Overview

Nordic Wire Tray and Meka are leading Nordic manufacturers offering high-quality, fire-resistant cable trays and cable management systems. Nordic Wire Tray (NWT) specializes in wire trays, data racks, and complete cable management systems designed for flexibility and high durability. Their X-Tray product line is a premium solution for demanding environments, offering stainless steel options and customizable sizes to meet unique project requirements. The trays are designed for fast installation with fewer fasteners, and they can be bent or cut on-site to fit specific layouts. NWT emphasizes high-quality materials and fire-resistant designs, making their products suitable for industrial and commercial applications.

Meka is a Nordic manufacturer with over 40 years of experience in cable support systems. Their product range includes galvanized steel and acid-proof steel cable ladders, wire mesh trays, and aluminum-frame systems, all engineered for high load capacities and wide spans. Meka's solutions are suitable for harsh environments, including pulp and paper, food industries, and outdoor installations, where fire safety and durability are critical. Their KS80 cable ladders and other trays are designed to protect cables from dust, humidity, and other environmental factors, ensuring long-term reliability.

Key Features to Consider:

- Material Options:** Stainless steel, galvanized steel, and acid-proof steel for fire resistance and corrosion protection.

- Customizability:** Both manufacturers offer tailored solutions to fit unique project dimensions and layouts.

- Installation Efficiency:** Designed for quick assembly with minimal tools and fasteners, reducing labor costs.

- Industry Applications:** Suitable for industrial, commercial, marine, and outdoor projects requiring fireproof and durable cable management.
