

Distribution box m32

Overview

The JÄGER DIREKT Wall-Mounted Plastic Distribution Box (Model M32) is a robust and reliable electrical distribution solution designed specifically for indoor applications. With the distribution box, centrally routed cables can be distributed 360° in all desired directions. Cables (with and without connectors) with a diameter of 1 to 15 mm can be routed, sealed and strain relieved in accordance with EN 62444. The distribution box is suitable for metric cut-outs M32 -. PCE specialises in the production of CEE industrial plugs and sockets, earthing contact plugs and sockets and supplies a complete range of rubber, metal and plastic distribution boxes. Double membrane seals, IP66, with two sealing membranes, closed, thermoplastic elastomer (TPE), for wall thicknesses 1.
