

## Double-layer cable trays in the Philippines

### AI Overview

Double-layer cable trays, often customized from ladder or perforated trays, are available in the Philippines through local manufacturers and suppliers offering industrial-grade cable management solutions. Overview Double-layer cable trays are designed to support multiple tiers of cables, optimizing space in industrial, commercial, or data center installations. They allow separation of power and data lines, improve airflow, and facilitate maintenance. These systems are typically fabricated from steel, aluminum, or PVC, and can be customized to meet load capacity, ventilation, and environmental requirements. Local Manufacturers and Suppliers Several reputable suppliers in the Philippines provide cable trays suitable for double-layer configurations: RMRE Electric: Offers ladder trays, perforated trays, and accessories with high-strength materials suitable for industrial and commercial installations. LJ Industrial: Supplies standard and customized cable trays, including ladder and perforated types, ideal for power, telecommunications, and industrial infrastructure. Gentec Group: Manufactures wire mesh and ladder trays, providing versatile solutions for multi-tier cable management. AWS Gentec: Focuses on large-scale and complex installations, offering tailored cable ladder systems that can be adapted for double-layer setups. AM-PRO Industrial Co.: Provides fabrication, engineering, and on-site installation services across the Philippines, including Mindanao regions. Pricing Cable tray prices in the Philippines vary depending on material, size, and customization. Standard trays range from approximately ₱1,310 to ₱5,307 per section, with double-layer or custom configurations likely at the higher end due to additional materials and fabrication. Online platforms like Lazada also offer cable trays for smaller-scale projects or quick procurement. Installation Consid...
