

Dutch Telecom Fiber Optic Cable

Overview

Odido is the first provider for internet, TV, and telephony via our fiber optic network in many places, but Fiber. nl, TriNed, SNLR, MultiFiber, Stipte, and Freedom Internet are also increasingly offering their services via our network. We are the leading fiber expert in the Netherlands, and believe everyone should have access to lightning fast fiber internet. Our network is making this possible for more and more people. DELTA Fiber is a Dutch telecom company with a network throughout the country. With fiber optic, the connection remains stable and fast, because you only share it with housemates, not with the. The availability of fiber-optic is unequally distributed across the Netherlands. This is how we fulfill. Fiber-optic had already been on the rise, but, in the first quarter of 2025, the number of households with fiber-optic plans exceeded for the first time the number of households with cable-based broadband plans.
