

Eight-port fiber optic terminal box

Overview

The HTB8014 8-Core Fiber Optic Terminal Box is a compact and durable solution for managing fiber optic terminations in FTTH, telecom, and enterprise networks. With capacity for up to 8 fibers, it provides secure splicing, patching, and distribution in a wall-mounted indoor. The 8 ports metal fiber terminal box is similar to the fiber optic patch panel in appearance and function, which designed to connect optical fiber cable and pigtail within building entrance locations and other indoor wall mounted environments. It can be installed on walls or utility poles, and its waterproof cover ensures maximum moisture protection, ensuring optimal performance in any weather conditions. Suitable to work with 8 pcs SC Simplex or LC duplex fiber adapters on wall mount use.
