

European Steel Channel Cable Tray Manufacturer

AI Overview

Leading European manufacturers of steel channel cable trays include Eurostrut, DKC Europe, Eurotray, Spina Group (Schiavetti Tekno), and Metsec, offering a wide range of industrial-grade solutions. Key Manufacturers and Offerings Eurostrut provides durable cable trays made from hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. Their systems include open, perforated, and distribution trays, as well as NATO-type models, designed for fast installation and flexible configurations. DKC Europe is a European leader in cable tray systems, offering comprehensive solutions for civil and industrial infrastructures. Their products cover energy protection, transport, and distribution, supporting both standard and complex installations. Eurotray specializes in heavy-duty cable management systems, including trays, mounting supports, and fittings. Their products are designed for high cable loads, vertical applications, and environments requiring industrial hygiene, such as data centers and food manufacturing plants. They also provide turnkey solutions and steel solar mounting structures. Spina Group (Schiavetti Tekno), an Italian manufacturer, offers stainless steel, galvanized, and wire cable trays in closed, perforated, ladder, and wire-mesh types. Their systems comply with European (EN) and international standards, ensuring strength, corrosion resistance, and long-term performance. Custom sizes and compatibility with Unistrut systems are available. Metsec (UK-based) manufactures cable trays in mild steel (pre-galvanized or hot-dip galvanized) and stainless steel (316L). Their systems conform to BS EN 61537 standards and include medium and heavy-duty trays with slotted return flanges, integral connectors, and a full design service for bespoke solutions. Considerations for Selection Material: Choose between galvanized steel for general...
