

European-style multi-hole cable tray company

AI Overview

European-style multi-hole (perforated) cable trays are available in stock from multiple suppliers, including Ekabel24, Eurostrut, Spina Group, and PohlCon. Suppliers and Stock Information Ekabel24 offers a wide range of cable trays and ladders in hot-dip galvanized steel, stainless steel, and halogen-free plastic, all compliant with DIN EN 61537 and international standards. Their perforated trays provide excellent ventilation and easy access for cable management in industrial and commercial installations. Eurostrut supplies cable trays, ladders, and protective tubes suitable for industrial, marine, and offshore applications. Their webshop allows for fast delivery from stock, including multi-hole and distribution tray models. Spina Group (Schiavetti Tekno) manufactures European-standard cable trays in stainless steel, galvanized steel, and wire-mesh. Their PS and AR perforated series are lightweight, ventilated, and ideal for industrial plants, while closed-bottom trays (FC type) are suitable where cable isolation is critical. Custom sizes and compatibility with Unistrut systems are also available. PohlCon provides flexible cable support systems with perforated (RG) and non-perforated (R) trays, including heavy-duty, sprinkler-compatible, and installation-specific models. Their catalog includes mesh trays, ladders, and wide-span systems, all designed for secure and adaptable cable routing.

Key Features of European-Style Multi-Hole Cable Trays

- Perforation for ventilation:** Reduces heat buildup and allows easier inspection and maintenance.
- Material options:** Galvanized steel, stainless steel, or halogen-free plastic for corrosion resistance and safety.
- Compliance:** Meets DIN EN 61537 and other European standards for industrial and commercial installations.
- Flexibility:** Supports future expansions and easy integration with existing support structures.
- Custom sizes:** Many suppliers offer tailo...
