

Fiber Optic Cable Sheath Mold Replacement Solution

Overview

This kit includes a reusable wraparound mold and accessories for use with 3M™ Scotchcast™ Flame-Retardant Electrical Insulating Resin (purchase separately) that are necessary for repairing cable jackets. Corning® Armorcast™ structural material is a flexible fiberglass knit fabric strip that has been saturated with a urethane resin syrup that starts to cure when water is added. Once wet, the fiber strip becomes tacky and sticks to itself, so it wraps easily around almost any shape. Whether you're dealing with PVC jackets in an office building or armored. The sheathing process is where you apply the final touch to your loose tube fiber optic cable. The FiloSlim Cable Sheath Repair Kit utilizes a totally enclosed mix-and-pour polyurethane resin technology, designed for use. 1. These types are (Figure 1): Type A 1) The sheath is peeled or chipped.
