

German-customized AI server DML

AI Overview

German-customized AI servers provide high-performance GPU infrastructure, LLM support, and GDPR-compliant hosting for AI applications, with options for dedicated, managed, or virtualized setups.

Overview of German AI Server Providers

CloudKleyer offers dedicated GPU servers optimized for machine learning and AI inference, with direct partnerships with NVIDIA, AMD, and major hardware manufacturers. Servers can be leased for 2-5 years, starting from €2,668 per month for enterprise-grade configurations. Their Frankfurt data center ensures 99.9% uptime, advanced cooling, fire safety, and biometric access control, supporting both bare-metal and virtualized deployments with Oracle VM VirtualBox for flexible OS management.

WZ-IT provides managed AI servers tailored for LLMs and inference engines like Ollama and vLLM. These servers are fully configured, optimized for low latency and high throughput, and include installation, updates, monitoring, backups, and personal support. They support a wide range of open-source LLMs, including Gemma, DeepSeek, Llama, Mistral, Qwen, and Phi, with model sizes from 8B to 405B parameters. Optional vision and reasoning capabilities, MoE architectures, and multilingual support are available, making them suitable for APIs, batch processing, and multi-user applications.

AIME specializes in high-performance computing for AI, offering HPC servers, workstations, and GPU cloud hosting. Their systems are based on AMD CPUs, NVIDIA GPUs, and ASUS barebones, with pre-installed AI frameworks and flexible hosting options. AIME emphasizes scalability, reliability, and tailored configurations for research, startups, and enterprise AI workloads across Europe.

werk21 provides turnkey AI servers operated in Germany with GDPR compliance. Their servers support chat, search (RAG), vector databases, and LLM execution. Users benefit from an intuitive interface, API integration with OpenAI or Ollama, and the ability to manage data locally without third-party exposure. Pricing starts from €385 per month, and servers are configure...
