

## Greece to Optical Cable

### Overview

Vodafone's Carrier Services unit will construct a fast, high-capacity subsea optical fibre cable system in Greece, linking Crete with the mainland, to boost the local digital economy and improve access to vital online services such as healthcare, education and banking. China, the United States, and Brazil were the largest consumers in 2024, while China also led production, significantly outpacing other countries. Saudi Arabia is investing millions of dollars in fibre-optic cables in Syria, in a move that could see it brush aside Israel Saudi Arabia's Crown Prince Mohammed bin Salman during the US-Saudi Investment Forum at the John F Kennedy Center for the Performing Arts in Washington, DC, on 19 November. In 2025, the Greek market for optical fibers, bundles and cables decreased by X% to \$X for the first time since 2021, thus ending a two-year rising trend. In general, consumption continues to indicate a pronounced setback. The Company manufactures submarine, power and telecommunication cables, as well as compounds. As a new strategic digital corridor in the Eastern.
