

High-precision integrated distribution box cabinet for park network use

Overview

This Integrated Cabinet for Telecom Equipment is designed for outdoor telecom applications, incorporating power distribution units, thermal management (AC or fan), standard 19-inch mounting racks, battery trays, and remote monitoring modules. It is not just a distribution Cabinet, power inputs, outputs, power monitoring system as a whole set of integrated power distribution. An integrated distribution box is a compact, all-in-one electrical enclosure designed to streamline power distribution by housing circuit breakers, fuses, contactors, and other control components in a single unit. These enclosures are essential in both commercial and industrial applications. Good fireproof performance Reliable insulation performance No pollution Strong recyclability Stable operation and low failure rate Simple daily maintenance Strong adaptability to the environment Flexible and convenient installation Low loss High heat dissipation efficiency Low noise Perfect. The JP Series Outdoor Integrated Distribution Box is an outdoor integrated solution designed for urban and rural power distribution network upgrades. With IP55/IP65 protection, it ensures secure operation.
