

How much does a Finnish fiber optic patch cord cost

AI Overview

Fiber optic patch cord prices in Finland vary widely, typically ranging from €5 to €50 per unit depending on type, length, and connector specifications. Pricing Overview The cost of fiber optic patch cords depends on several factors, including fiber type (single-mode or multimode), connector type (LC, SC, MPO/MTP), cable length, and jacket material. Standard multimode patch cords (OM3/OM4) for short distances usually start around €5–€15 per meter, while single-mode or specialized MPO/MTP cords can range from €20 up to €50 or more per unit. Armored or LSZH (Low Smoke Zero Halogen) cables designed for harsh environments typically carry a higher price. Vendor Options in Finland Mouser Finland offers a variety of fiber optic patch cords and cables, including plenum-rated and VCSEL array options, with inventory, datasheets, and pricing available online. Farnell Finland provides single-mode and multimode fiber optic cables suitable for telecommunications, data centers, and networking, with fast quotes, same-day dispatch, and technical support. StarTech.com Finland supplies rigorously tested fiber optic cables in multiple lengths, colors, and connector types, meeting TIA/EIA-568 standards. FS Europe offers bend-insensitive fiber patch leads supporting high-speed cabling up to 400G, with 100% end-face, IL, and RL testing. Factors Affecting Price Fiber Type: Single-mode fibers are generally more expensive than multimode fibers due to higher precision and longer transmission capabilities. Connector Type: MPO/MTP connectors require precise alignment and polishing, increasing cost, especially for 12F/24F cores. Cable Length: Prices increase linearly with length, but specialized jackets or armoring can add additional cost. Environmental Rating: LSZH or armored cables designed for public buildings or harsh conditions are more expensive. Volume and C...
