

How much does a steel structure cable tray cost in Jordan

AI Overview

Steel cable trays in Jordan typically cost between \$10 and \$30 per meter, depending on material, type, and finish. Price Range and Factors

The cost of steel cable trays in Jordan varies based on several factors:

- Material:** Galvanized steel is the most common and cost-effective option, balancing durability and price. Stainless steel trays are more corrosion-resistant but generally more expensive.
- Type and Design:** Ladder trays, perforated trays, and trough trays differ in price. Ladder trays are stronger and hold heavier cables, costing more, while perforated trays are slightly cheaper.
- Surface Finish:** Hot-dip galvanized (HDG) trays are more durable outdoors but cost more upfront. Powder-coated or pre-galvanized trays offer varying levels of protection and pricing.
- Size and Customization:** Wider or thicker trays, or custom lengths and fittings, increase the cost.
- Installation and Shipping:** Labor, equipment depreciation, and transport costs can add to the total project cost.
- Local Suppliers in Jordan:** Several suppliers provide steel cable trays in Jordan: Davos for Electrical Systems & Supplies offers full cable management solutions including steel cable trays suitable for commercial and data center projects. Brilltech Engineers and other local manufacturers supply galvanized and stainless steel trays with customizable sizes and fittings. Wiremeshes and Jeetmull Jaichandlall are known for stainless steel trays, emphasizing durability and low maintenance.

Cost-Saving Tips

- Bulk Orders:** Purchasing in larger quantities can reduce the per-meter cost.
- Material Choice:** If corrosion resistance is not critical, galvanized steel is cheaper than stainless steel.
- Tray Type:** Choosing perforated trays over ladder trays can save 10-15% without compromising functionality for lighter cable loads.

In summary, for standard steel cable trays in Jordan, expect \$10-\$30 per meter, with higher-end stainless steel...
