

How much does an imported relay protection device cost

AI Overview

Imported protection relays typically range from \$3 to \$150 per unit depending on type, brand, and order volume, with an average import price around \$159.43. Average Import Pricing Based on recent import data, the average import price for protection relays is approximately \$159.43 per unit. Prices vary depending on the relay type, complexity, and country of origin. Major exporters include China, Germany, and Vietnam, while top importers globally are Vietnam, Russia, and India.

Supplier and Bulk Pricing Zhejiang Geya offers DIN-rail programmable relays at \$13.53 per unit for orders of 500+ units. Siemens-compatible premium models (e.g., 3RB2056-1FW2) cost around \$150 per unit for 50+ units. Zhejiang Zhongzhe voltage protectors are available at \$3.15 per unit for 1,000+ units. Bulk orders often receive 18-25% discounts, and modular or firmware-upgradable designs can reduce lifecycle costs. Prices may also vary based on integration requirements with SCADA or PLC systems, warranty, and after-sales support.

Types of Protection Relays

- Electromechanical relays:** Mechanical contacts, reliable for high-power loads.
- Solid-state relays:** Faster switching, longer lifespan, no moving parts.
- Reed relays:** Compact, hermetically sealed, ideal for low-voltage applications.
- Time-delay relays:** Provide precise control over activation/deactivation timing.

How to Obtain a Quote

To get a tailored price quote: Send an RFQ (Request for Quotation) to suppliers or distributors. Specify quantity, relay type, and technical requirements. Consider OEM or factory-direct options for competitive pricing. By comparing multiple suppliers and factoring in shipping, import duties, and bulk discounts, you can secure the most cost-effective solution for imported protection relays.
