

How much does an lc pigtail cost

AI Overview

A single LC pigtail typically costs around 3.82 € per piece, depending on type and supplier. Pricing Details The cost of an LC fiber optic pigtail varies based on fiber type (single mode or multimode), connector polish (UPC or APC), cable length, and supplier. For example, a pack of 12 LC pigtails is priced at 3.82 € per piece on GT-Netstore, which is a common reference for European buyers. Other suppliers, such as FS.com and TopFiberBox, offer single mode and multimode LC pigtails with options for simplex, duplex, or quad configurations, and cable lengths ranging from 1m to 5m or more. Prices may vary slightly depending on these specifications and shipping costs.

Factors Affecting Cost

- Fiber Type:** Single mode pigtails are generally slightly more expensive than multimode due to higher precision requirements.
- Connector Type and Polish:** UPC connectors are standard, while APC connectors may cost more due to angled polishing.
- Cable Length:** Longer pigtails increase material cost.
- Quantity:** Bulk purchases often reduce the per-unit price.
- Supplier and Region:** Prices vary by vendor and shipping location.

In summary, expect to pay around 3-5 € per LC pigtail for standard single mode or multimode types, with variations depending on length, polish, and supplier.
