

## How much does it cost per meter to directly bury fiber optic cable

### Overview

A representative range often cited is \$0.76 per meter) for materials plus labor, depending on fiber type (single-mode vs multi-mode), conduit size, and local conditions. These cables include gel-filled cores and water-blocking protection. Conduit systems add \$2-4 per foot but allow future cable additions. Handholes and. The total project cost typically ranges from a low near \$2,000 to a high well beyond \$15,000, depending on run length, environment, and required trenching or aerial work. A common indoor-to-utility run with standard materials sits in the \$3,000-\$8,000 range, while longer exterior runs with conduit. Buying fiber optic installation services involves several cost components, with total price influenced by length, location, and access. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000.
