

How much does it cost to build a bridge in Panama

Overview

Panama's Fourth Bridge over the Canal is now projected to cost \$2.387 billion, including financing, after a new \$295 million addendum was signed to redesign the project's eastern interchange. The Ministry of Public Works says the change is meant to avoid future congestion and improve connections. This project was awarded in 2018 to the Panama Fourth Bridge Consortium (CPCP), composed of the companies China Communications Construction Company LTD and China Harbour Engineering Company LTD, with a cost of \$1,420 million and a link with line three of the Metro, but financing problems and design. Typical cost range for bridge work spans a broad spectrum: small residential approaches may start around \$50,000, while mid-sized crossings commonly run \$400,000-\$2,000,000, and large highway bridges can exceed \$4,000,000 depending on span and method. 387 billion and reinforcing the government's intention to make this one of the country's most important long-term infrastructure upgrades. For an international. The \$1.
