

Huawei Gigabit Optical Switch

Overview

High-performance Huawei S5731-S48T4X switch with 48 Gigabit ports, 4 SFP+ slots, 336Gbps capacity, and robust surge protection. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. Huawei CloudEngine S5735-S-V2 series hybrid optical-electrical switches are standard gigabit Ethernet switches that provide all GE downlink ports, DB50 ports, 10GE uplink ports and 2 stack ports. Based on next-generation, high-performance hardware and Huawei Versatile Routing Platform (VRP), the S5700-HI provides excellent NetStream function. To view the available flash memory size, run the display version command. When the altitude is 1800-5000 m (5906-16404 ft. The switch cannot be started when the ambient temperature is. Huawei S5720-28X-SI delivers high performance of switching capacity and powerful layer 3 routing capabilities, such as OSFP/OSPFv3, BGP/BGP4+, ISIS/ISISv6, and provides voice, video and data services, helping enterprises build an integrated full service network with high availability and low. Huawei S5720-52X-PWR-SI-AC is a Layer 3 Ethernet switch. It supports forty-eight Ethernet 10/100/1,000 PoE+ ports and 4 x 10G SFP. It offers double hot-swappable AC/DC power supplies, one AC power module is configured by default.
