Overview

We are now seeing the exciting rise of the smart cable tray. These are more than just metal or plastic supports. This change is making our electrical and data networks more dependable. The Wire Basket Overhead Cable Tray Routing System is a robust cable management solution that optimizes system reliability, space utilization and scalability. It provides speed of deployment, structural integrity, cable protection and ease of use to drive business results. The wire basket is up to. ELCON Global, a leading cable tray manufacturer, understands the vital role these seemingly simple structures play in the digitalization of buildings. By providing robust and adaptable solutions, they empower data centers and other intelligent structures to navigate the ever-evolving technological. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Cable management solutions are now more effective, safe, and aesthetically pleasing thanks to developments in design. Explore our versatile and customizable offerings, designed to ensure organized and reliable cable routing, minimizing the risk of downtime and optimizing performance.
