

Kyrgyzstan 1U Cable Management Stand 1000mm Deep Installation Solution

Overview

1U 24-port side mount cable manager designed for 1000mm depth racks. Organizes Ethernet and network cables efficiently, improves airflow, reduces clutter, and ensures clean structured cabling in high-density server rooms and data centers. Designed with 24 perforated channels, each one corresponding to another. Clear markings make it easy to search and replace cables. Low cost for repetitive cable. A Rack Cable Manager (also known as a cord organizer or cable management system) is an essential component in data centers, server rooms, and network cabinets. Keep your data centers, intra-building thoroughways and telecommunication closets organized with these cable management options. ABS Material: The ABS material ensures durability and resistance to impact, making it suitable for long-term use in data center environments.
