

Manufacturer of Split-Type LC Fiber Optic Adapters

AI Overview

Key manufacturers of split-type LC fiber optic adapters include Belden, TTI Fiber, Leviton, Corning, and Fibertronics, offering simplex, duplex, and hybrid configurations for singlemode and multimode applications. Leading Manufacturers Belden offers standalone fiber adapter modules, including LC duplex adapters, suitable for a variety of applications. They provide standard, KeyConnect, and MDVO adapter modules, with options for custom engineered solutions and bulk packaging. TTI Fiber, based in Shenzhen, China, manufactures a full range of fiber optic adapters, including LC adapters in simplex and duplex configurations. They provide UPC and APC polish types, ceramic or phosphor bronze sleeves, hybrid adapters, and OEM/ODM services for panel builders and telecom operators. Leviton produces LC adapters compliant with TIA-604-10, FOCIS-10, GR-326, and IEC standards. Their adapters support low insertion loss (≤ 0.2 dB) and operate across a wide temperature range, making them suitable for data centers, PON, and CATV installations. Corning offers LC adapters with tightly toleranced ceramic ferrules for consistent low-loss performance. Their products are fully intermateable with standard LC connectors and designed for long-term stability in diverse applications. Fibertronics provides LC fiber optic adapters in singlemode and multimode variants, with zirconia or bronze sleeves. They offer simplex, duplex, and quad configurations, as well as hybrid adapters, and support custom fiber assemblies.
