

Mauritius Low Voltage Cable Tray

AI Overview

Low-voltage cable trays in Mauritius can be installed using industry-standard methods with local suppliers like GECC Ltd., STB Ltee, and FAMECA providing design, supply, and installation services. Local Service Providers GECC Ltd. specializes in LV and HV cabling up to 66kV, offering supply, installation, and maintenance of cable trays, ladders, PVC conduits, and underground ducts. They also provide cable support systems, cable pits, and earthing solutions for LV networks. STB Ltee handles LV installations up to 6300A, providing design, supply, and implementation for new projects across private, para-statal, and government sectors. FAMECA offers electrical products and services including low-voltage cable supports, insulating mats, PPE, and cable management accessories, supporting safe and reliable LV installations.

Installation Process

Material Inspection and Preparation: All cable trays, ladders, and fittings should be inspected for damage and compliance with approved shop drawings. Materials are stored horizontally on flat surfaces with timber supports to prevent deformation and moisture damage.

Layout and Planning: Review approved shop drawings to determine tray routes, lengths, and support locations. Ensure proper spacing and alignment to accommodate cable bends and future expansion.

Support and Fixing: Install supports such as brackets, struts, or hangers at regular intervals according to manufacturer specifications. Cable trays should be securely fixed to walls, ceilings, or structural elements while maintaining level alignment.

Cable Laying: Lay LV cables in the trays without exceeding the recommended fill capacity. Use separators or dividers if multiple circuits are present to prevent interference and allow heat dissipation.

Termination and Connections: Complete cable terminations at panels, switchboards, or distribution boards. Ensure proper earthing and bonding of trays to prevent electrical hazards.

Inspection and Testing: Conduct visual inspections and continuity tests to verify installation quality. Check f...
