

Mexican Fiber Optic Distribution Frame Manufacturer

AI Overview

Key Mexican manufacturers of fiber optic distribution frames include OXEN, Fibremex, Condumex, and FibraMarket, offering customized solutions and comprehensive fiber optic products. OXEN is a Mexican company specializing in custom fiber optic solutions, including pedestals and distribution frames for FTTx networks. They provide tailored products to meet client-specific requirements, with delivery times of 24-48 hours for standard items, 5-year product performance warranty, and 60-day handling warranty. OXEN has over 10 years of experience in manufacturing optical link assemblies and offers a wide range of fiber optic network solutions for telecommunications infrastructure in Mexico. Fibremex is a leading distributor of fiber optic and structured cabling products in Mexico. While primarily a distributor, they provide a comprehensive range of products for installation of fiber optic networks, including distribution frames, connectors, and cabling solutions. Fibremex focuses on supporting telecommunications and enterprise network projects with high-quality equipment and technical support. Condumex is a well-established Mexican manufacturer with over 60 years of experience in cables and wires, including fiber optic cables and jumpers. They produce a wide range of telecommunications products suitable for distribution networks, including fiber optic distribution frames and enclosures. Condumex serves both domestic and international markets, offering logistics support and high-quality manufacturing standards. FibraMarket specializes in the distribution of fiber optic products, including jumpers, pigtails, and network components. With over 20 years of experience, they provide tailored solutions for fiber optic networks in Mexico, making them a trusted partner for businesses seeking reliable fiber optic distribution equipment.
