

Micro-module data center manufacturing company

Overview

Some of the top manufacturers of modular data centers include HPE, IBM, Eaton, Schneider Electric, Huawei, Dell, Vertiv, and others. Discover the top 10 companies driving the future of modular data centres with innovative, scalable and sustainable infrastructure solutions. As computing demands surge, modular data centres are redefining how infrastructure is built, scaled and operated. It uses racks as the datacenter carrier and fully integrates all sub-systems including UPSs, cooling, power distribution, lightning protection, fire control (optional), wiring, airflow management, intelligent. This report lists the top Modular Data Center companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Modular Data Center industry. Whether you need a small-scale on-premise data center or a modular solution for rapid deployment, our expert construction and engineering services ensure. A modular data center consists of a prefabricated data center module, including servers, racks, power supply, networking, backup, cooling, and monitoring systems that are portable and quick to assemble and deploy.
