

Outdoor 12-core multimode optical cable price quote

AI Overview

The price of a 12-core outdoor multimode fiber optic cable ranges from approximately \$200 to \$350 for a 1000-foot spool, depending on fiber type and specifications.

Pricing Examples

- OM3 12-Strand Fiber Optic Cable (50/125 μ m, 1000 ft):** Available on Amazon for around \$299, featuring indoor/outdoor plenum-rated construction, water-proof aramid yarn, and black PVC jacket, suitable for 10G Ethernet up to 300 meters.
- OM1 12-Strand Fiber Optic Cable (62.5/125 μ m, 1000 ft):** CableWholesale offers this indoor/outdoor riser-rated cable for approximately \$209, optimized for LAN speeds with fire-retardant PVC jacket and compliance with TIA/EIA and IEC standards.
- OM4 12-Core Loose Tube Outdoor Cable:** Fiber24 lists high-quality OM4 outdoor cable with rodent protection and LC-LC connectors, typically supplied on drums starting from 100 meters; pricing varies based on length and vendor, generally \$250–\$350 per 1000 ft.
- Alibaba 12-Core Outdoor Multimode Cable (OM3/OM4):** Bulk options for outdoor FTTH networks are available, CE/ISO certified, with prices depending on order quantity and shipping, often in the \$200–\$300 range per 1000 ft.

Key Considerations

- Fiber Type:** OM3 (50/125 μ m) supports higher-speed 10G Ethernet over longer distances than OM1 (62.5/125 μ m). OM4 offers even better performance for future-proofing.
- Outdoor Rating:** Ensure the cable is rated for outdoor use, with UV-resistant jackets, water-blocking yarn, and rodent protection if needed.
- Length:** Prices are typically quoted per 1000-foot spool; shorter lengths may cost proportionally more per foot.
- Certifications:** Look for compliance with TIA/EIA, IEC, RoHS, and fire safety standards (Plenum or Riser rated) for reliability and safety.

In summary, for a 12-core outdoor multimode fiber optic cable, expect to pay \$200–\$350 per 1000-foot spool, with the exact price depending on fiber type (OM1, OM3, OM4), certifications,...
