

Poland acquires electrical distribution boxes

Overview

CSG Polska has signed a preliminary agreement to acquire DOMAR MS, one of Poland's leading manufacturers of cabling, cable harnesses, electrical boxes, and a distributor of electrical connectors used in military systems and other specialized products. On Friday, March 20, 2026, the Czech holding company Czechoslovak Group (CSG). The funding will be invested in the construction and modernisation of distribution networks using smart grid technology. 13bn. Poland is undergoing an ambitious energy transition, aligning with broader European goals to reduce greenhouse gas emissions and substantially increase the share of renewable energy sources (RES) in its national energy mix. A main aspect of this shift involves modernising and expanding its. On March 12, 2025, the Polish government presented a draft amendment to the Energy Law that represents the most extensive reform of the grid connection process in over a decade. The proposed legislation is designed to align with EU Directive 2024/1711 and Regulation 2024/1106, and also fulfills key. A 100 MW solar distribution deal has been signed in Poland, with Menlo Electric and AIKO providing PV technology for residential and commercial use. AIKO's BC technology, included in the 100 MW solar deal, delivers up to 9% more power than TOPCon for the same module size. Image Source: AIKO AIKO,a. Dalkia Polska, a subsidiary of Dalkia and part of the EDF Group (Electricité de France), has completed the acquisition of 100% of the shares in two companies: Edison Next Poland and Edison Next Services Poland. This acquisition, representing a turnover of nearly €100 million, reinforces Dalkia's.
