

Price of Empty Fiber Optic Panel Box

AI Overview

Empty fiber optic panel boxes typically range from \$20 to \$150 per unit, depending on size, port count, and manufacturer. Pricing Overview Fiber Savvy offers blank fiber patch panels in various sizes and styles, including swing-out, slide-out, and fixed enclosures. Prices vary based on the number of ports (12, 24, 36, 48, 72, 96, 144) and connector types (LC, SC, ST), with fixed enclosures being the most economical option. Made-in-China and Alibaba suppliers list 12-port 1U empty fiber optic distribution boxes, with pricing generally negotiable depending on order quantity. Small sample orders may be free, but shipping and taxes are paid by the buyer, while bulk orders (hundreds to thousands of units) are priced per unit and can be customized. Black Box offers universal blank panels, such as a 12-slot 3U panel, designed to hold adapter panels or LGX cassettes. These panels are constructed from heavy-duty steel and support up to 288 fibers, with prices typically in the mid-range for commercial-grade enclosures. Amazon provides a variety of fiber patch panels, including empty units, with prices starting around \$20-\$50 for smaller 12-port panels and increasing for larger or higher-quality enclosures. Factors Affecting Price Port Count: More ports (24, 48, 72, 96, 144) increase the cost. Rack Size: 1U, 2U, and 3U panels differ in price due to material and capacity. Enclosure Type: Swing-out and slide-out panels are more expensive than fixed panels. Material and Build Quality: Steel construction and cable management features can raise the price. Order Quantity: Bulk orders often reduce the per-unit cost, while small orders may include higher shipping fees. Summary For a basic 12-port 1U empty fiber optic panel, expect to pay \$20-\$50 per unit. Larger panels or premium enclosures with advanced cable management can cost \$100-\$150 or more. Prices vary by supplier, shipping, and customization options, so it is recommended to compare multiple vendors for the best deal.
