

Price of Outdoor 24-Core Single-Mode Fiber Optic Cable

AI Overview

The price of a 24-core outdoor single-mode fiber optic cable typically ranges from \$0.50 to \$2.50 per foot, depending on cable type, length, and vendor. Pricing Overview Alibaba lists 24-core single-mode outdoor cables with G652D fiber and PE jackets for aerial, duct, or burial use, generally priced in bulk, with costs starting around \$0.50–\$1.50 per foot for standard outdoor cables. Amazon offers 24-strand indoor/outdoor single-mode cables (OS2, 9/125μm) on 1000 ft spools, with prices around \$300–\$400 per spool, which equates to roughly \$0.30–\$0.40 per foot for premium Corning SMF-28 Ultra fiber. Fiber24.net provides loose tube 24-core outdoor cables with rodent protection and pulling aids, typically sold on drums starting at 100 meters, with prices varying based on length and specifications. CommScope and Lanshack offer specialized all-dielectric or gel-filled outdoor cables suitable for harsh environments, with prices generally higher due to enhanced water-blocking, UV resistance, and rugged construction, often \$1–\$2.50 per foot depending on features.

Factors Affecting Price

- Cable Type:** Loose tube, gel-filled, or all-dielectric designs influence cost. Gel-filled cables provide extra water protection but are more expensive.
- Length:** Bulk purchases (drums or 1000 ft spools) reduce per-foot cost.
- Fiber Quality:** Premium fibers like Corning SMF-28 Ultra or TeraSPEED OS2 fibers command higher prices.
- Outdoor Features:** UV resistance, rodent protection, and water-blocking elements increase durability and cost.
- Compliance and Ratings:** UL, RoHS, and ITU-T G.657.A1 compliance may slightly increase price due to certification standards.

Recommendation For standard outdoor installations, a loose tube 24-core OS2 single-mode cable with PE or MDPE jacket is cost-effective and widely available. For harsh environments or long-distance runs, consider gel-filled or all-dielectric cab...
