

Price of household electrical distribution boxes in South Africa

AI Overview

Complete electrical distribution boxes in South Africa typically range from around ZAR 500 to ZAR 5,000 depending on size, type, and features.

Overview of Distribution Box Options

Unpopulated DB Boxes: These are empty enclosures without circuit breakers installed. Prices for smaller units, such as 4-way or 6-way PVC boxes, generally start around ZAR 500–1,200, while larger steel 8-way or 12-way boxes can cost ZAR 1,500–2,500.

Populated DB Boards: Pre-populated boards come with circuit breakers and wiring installed. These are more expensive due to the added components and labor. A 12-way pre-populated flush-mount board can cost ZAR 3,000–5,000 depending on brand and quality.

Material and Mounting Type: PVC surface-mount boxes are generally cheaper and easier to install, suitable for residential or light commercial use. Steel or metal enclosures offer higher durability and are preferred for industrial or high-load applications, which increases the price.

Flush-mount vs surface-mount: Flush-mount boards are slightly more expensive due to installation complexity and aesthetic finish.

Suppliers in South Africa:

- DBSA Store:** Offers custom-designed, assembled, and tested distribution boards with real-time power analysis options.
- ARB Electrical Wholesalers:** Provides a range of robust and efficient distribution boards for residential and commercial setups.
- Light Market:** Stocks both unpopulated and pre-populated DB boxes in PVC and steel, with sizes from 4-way to 12-way.
- Builders Warehouse:** Offers online shopping and in-store pickup for various DB boards, including pre-populated options.

Additional Considerations

Delivery and installation costs may add to the total price, especially for larger or pre-populated boards. Warranty and quality certifications can affect pricing; reputable suppliers often provide tested and certified boards. Customization: Some...
