

Price quote for bridge scaffolding in China and Africa

AI Overview

Bridge scaffolding in China typically ranges from \$1,200 to \$2,500 per ton depending on specifications, while African prices vary due to import costs, local labor, and logistics. Pricing in China China is the world's leading producer of bridge scaffolding, with major manufacturing hubs in Guangdong, Hebei, Tianjin, Jiangsu, and Sichuan provinces . Prices depend on several factors: Material type: Q355 steel is more expensive than Q235, and steel accounts for 60-70% of total cost . Specifications: Pipe diameter, thickness (2.5mm vs 3.2mm), and modular design affect weight and cost . Surface treatment: Hot-dip galvanized (HDG) scaffolding costs more upfront but offers long-term durability, while painted or pre-galvanized options are cheaper . Production method: Automated cutting and robotic welding increase quality and cost, whereas manual welding reduces price . Order volume: Bulk orders significantly reduce unit cost due to economies of scale . Typical price range for bridge scaffolding in China is \$1,200-\$2,500 per ton, with Guangdong factories often offering 15-20% lower production costs than European suppliers due to integrated supply chains and port access . Export Considerations to Africa When sourcing scaffolding for African projects, additional costs must be considered: Shipping and logistics: Ocean freight, container loading, and steel pallet packaging can add 10-25% to the base price . Customs and import duties: Vary by country; for example, East African ports may impose 5-25% import tariffs. Local labor and assembly: On-site installation costs differ by region and project complexity. Supplier selection: Choose manufacturers with ISO 9001 certification and compliance with EN 12811 or OSHA standards to ensure safety and reliability . A rough estimate for African projects sourcing from China would be \$1,500-\$3,000 per ton, depending on shipping distance, port fees, and local handli...
