Provincial-level top-tier energy internet enterprise

Overview

Taicang Company of China Energy Jiangsu Branch successfully made the list for its excellent capabilities of industrial Internet platform construction and services, with the highest five-star rating, becoming the only thermal power enterprise in the province to win the honor. Seven enterprises invested by Shandong's Fund for the Replacement of Old Growth Drivers with New Ones such as TELD, Gogetter Intelligence, and Cloudsky SEC are on the list. Canada is rich in energy supply—including large hydroelectric reservoirs in British Columbia, Manitoba, Ontario, and Quebec, hydrocarbon resources. On September 5, the Jiangsu Provincial Department of Industry and Information Technology announced the 2022 list of star-rated cloud computing companies involved in the provincial industrial Internet demonstration project. Jiangsu provincial industrial internet platform focus on the digitalization and integrated connectivity such as renovation of industrial facilities and equipment, R&D design. SC-EIRI is a new R&D institution focusing on Energy Internet, officially co-established by Tsinghua University and Sichuan Province in 2016, based in Sichuan Tianfu New Area. We have assembled a capable and innovative team, and we are actively contributing to the global energy transformation.
