

Sri Lanka electrical distribution box manufacturer

AI Overview

Sri Lanka has several reputable manufacturers of electrical distribution boxes, including Magline Switchboards, Proline Engineering, KIK Lanka, DIMO Lanka, and others. Key Manufacturers Magline Switchboards Pvt Ltd specializes in low voltage power distribution panels, sub-distribution panels, cable management systems, and server rack systems for both industrial and domestic applications. They design and manufacture in-house, ensuring compliance with international standards and tailored solutions for clients. Proline Engineering Services (Pvt) Ltd offers design, manufacturing, and assembly of main switchboards, power factor correction panels, auto transfer switch panels, pump control panels, and metal enclosures. Their products are modular, custom-built, and meet international standards, with comprehensive after-sales support. KIK Lanka Pvt Ltd provides modular low voltage panel systems engineered for industrial applications. Their distribution boards and power control centers are type-tested and globally certified, designed for reliability and long-term operation in energy-intensive facilities. DIMO Lanka manufactures low and medium voltage power distribution panels for commercial, industrial, and utility applications. They offer turnkey solutions, including design, installation, and testing, with a focus on energy efficiency and client-specific customization. Other notable companies include DCL Engineering (Private) Limited, which distributes structured cabling and electrical solutions, Power Net Energy (Private) Limited, specializing in power factor correction and energy optimization, Everbolt Engineering Services (Pvt) Ltd, focusing on industrial power distribution and control systems, T&R Power Engineering, providing turnkey electrical panel projects, and Energy Surge Pvt Ltd, offering low voltage electrical engineering solutions. Summary These manufacturers...
