

US CIF Price Optical Transmitter QSFP28

AI Overview

The US CIF price for QSFP28 optical transmitters typically ranges from \$200 to \$600 per module, depending on type, manufacturer, and volume. Pricing Overview QSFP28 (Quad Small Form-factor Pluggable 28) modules are widely used for 100G Ethernet connectivity in data centers, enterprise networks, and service provider applications. The price of a QSFP28 optical transmitter depends on several factors:

- Module Type:** Variants include SR4 (short-range multimode), LR4/ER4 (long-range single-mode), and PAM4 single-lambda optics. Single-mode long-range modules generally cost more than multimode short-range modules.
- Manufacturer:** Leading suppliers like Coherent Finisar, II-VI, and Transceiver USA offer modules with prices varying by brand and lifecycle status.
- Technical Specifications:** Output power, receiver sensitivity, and bit error rate influence cost. Modules that pass rigorous Design Verification Tests (DVT) and Qualification Tests are priced higher due to reliability assurance.
- Volume and Supply Chain:** Bulk purchases and established supplier relationships can reduce per-unit cost. CIF pricing also includes shipping, insurance, and handling fees, which vary by port and logistics provider.

Market Price Range Based on current US suppliers:

- Short-range multimode QSFP28 (SR4): Approximately \$200–\$350 per module.
- Long-range single-mode QSFP28 (LR4/ER4): Approximately \$400–\$600 per module.
- High-performance or specialized modules (PAM4, CWDM4): Can exceed \$600 per module, especially for low-volume or custom orders.

Supplier Options

- Mouser Electronics:** Offers a wide inventory of QSFP28 transmitters with datasheets and pricing for immediate purchase.
- FS.com:** Provides 100G QSFP28 modules with nearby warehouse shipping and 30-day free returns.
- Transceiver USA:** Stocks Coherent Finisar and II-VI modules with direct purchase options and detailed part numbers.

Key Considerations for CIF Pricing When calculating CIF price for import into the US:

- Base Module Cost:** Supplier price per unit.
- Shipping & Freight:** Air or sea freight charges d...
