

Waterproof AC power supply cabinet for base stations

Overview

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks. It integrates AC and DC power systems, intelligent monitoring units, and environmental control modules. AZE's 20u 30u 40u Metal Enclosure Outdoor Telecom UPS Lithium Battery Enclosure Power Street Cabinet with Air Conditioner is mainly used for wireless communication base station, including the new generation of 4G system, communication network/network integrated services, access/transmission. Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Constructed from high-strength steel or stainless steel, it offers excellent waterproof, dustproof, and corrosion-resistant performance with IP55. An outdoor power supply cabinet is a protective enclosure designed to house and safeguard electrical components in external environments. These cabinets are engineered to withstand harsh weather conditions, temperature fluctuations, dust, moisture, and unauthorized access.
