

What is the model number of the butterfly-shaped drop cable

AI Overview

The primary model number for a butterfly-shaped drop cable is GJYXCH. The GJYXCH Series is a professional-grade butterfly-type drop cable designed for FTTH (Fiber to the Home) access networks, suitable for both indoor and outdoor self-supporting installations. It features G.657A1/A2 bend-insensitive single-mode fiber, a unique butterfly structure with a V-groove design for easy stripping and termination, and optional reinforcement with Aramid Fiber or Phosphated Steel Wire for mechanical strength. The cable is available with LSZH (low-smoke, zero-halogen) or PE jackets for indoor flame-retardant or outdoor UV-resistant applications. Other related model numbers include GJYXFCH, which is also a self-supporting butterfly drop cable suitable for outdoor aerial deployment, supporting 1-12 fiber cores and featuring an 8-shaped cross-section for enhanced crush resistance and easy installation. Both GJYXCH and GJYXFCH comply with IEC 60794, RoHS, and CE standards, making them suitable for global telecom projects.

Key Features of GJYXCH/GJYXFCH Butterfly Drop Cables:

- Self-supporting for aerial installations
- Bend-insensitive G.657A1/A2 fibers for tight indoor routing
- LSZH or PE sheath for safety and environmental protection
- Easy stripping and splicing due to butterfly or 8-shaped design
- Reinforced with FRP or steel for tensile and crush resistance

These model numbers are widely used in FTTH and FTTB deployments for connecting fiber distribution points to end-user terminals, ensuring reliable high-speed broadband service.

For indoor prefabricated end butterfly-shaped drop optical cable

Executive standard: YD/T 1997-2014 Butterfly Drop Optical Cable for Access Network
Features: Optical cable has small outer diameter, light weight, and low construction cost; Using cold connection

1/2/4F Armored Butterfly Drop Cable for Duct 6.8mm

FTTH Armored Butterfly Drop Cable features dual central fibers, parallel strength members, aluminum armor, and water-blocking tape for durable FTTH deployments in duct, or harsh environments.

Butterfly Flat FTTH Drop Cable Figure 8 drop cable Price in china

Butterfly Flat FTTH Drop Cable Figure 8 drop cable Widly Use In FTTH Network and usually use G657A2 Core And Metal Or KFRP as strength member GJYXFCH - GJYXCH - GJXH - GJXFH

Answer archive for "Connections" game If you've been playing "Connections" for a while, you'll no doubt want to look up some of the previous answers, either to give yourself inspiration for

Butterfly flat FTTH drop cable

4 Cores 2x3mm Butterfly flat FTTH drop cable uses butterfly flat structure. 4 SM G657A1 or G657A2 optical fiber units are positioned in the center. Two parallel Fiber Reinforced Plastic (FRP) rods are

Butterfly Drop Cable

Butterfly Drop Cable It is mainly used as a fiber to the home (FTTH) and other fiber optic access (FTTx) network user introduction segment cabling cable for communication between indoor user access

Butterfly Indoor FTTH Drop Cable

Butterfly FTTH drop cable is a popular type of fiber access optical cable, according to the different application environment and laying conditions, it has reasonable design of cable structure and

Videos Hub Portal – Blog Sharing Platform & Metacafe Video Archive

Videoshub is a creative platform since 2008 with blogs, videos and a Metacafe archive featuring viral clips, movies, classics and internet favorites.

1 Core, 2 Core, 3 Core Butterfly Drop Cable

The outdoor drop cable has a self-supporting hanging wire in a figure-8 shape. The drop cable is generally divided into 1 core, 2 cores and 3 cores single-mode fiber optic cable. Generally, a single

The Structure of Drop Cable: A Comprehensive Guide | FIBEYE

2. Butterfly-Shaped Drop Cable This type of cable gets its name from its butterfly-like cross-sectional shape. The structure of the butterfly drop cable can vary among different manufacturers, but it

G657A1/A2 Singlemode Butterfly Type Drop Fiber Optic Cable

FTTH drop cable with easy accessibility to the fiber and simple installation, FTTH cable can be directly connected to the homes. It is suitable for connecting with communication equipment, and used as

2 Core FTTH Fiber Drop Cable G.657A2 FRP LSZH GJXFH

FTTH cables are ideal for indoor cabling, end users directly cabling, and access network. The optical fiber unit is positioned in the center. Two parallel Fiber Reinforced Plastics (FRP) are placed at the

1/2/4F Self-supporting Butterfly Drop Cable Black 2.0×5.0mm

Self-supporting Butterfly Drop Cable with central fiber core and dual strength members. Ideal for FTTH, aerial/duct installations, and harsh environments.

Outdoor FTTH Drop Fiber Cable, Self-Supporting Butterfly Drop Optic

FTTH outdoor drop cable (GJYXFCH/GJYXCH) is also called self-supporting butterfly drop optical cable which consists of a indoor butterfly cable and an additional strength member at the two sides.

1F Fig 8 Self-supporting FTTH Drop Cable 3.5x6.4mm

Description 1F Fig 8 Self-supporting FTTH Drop Cable is a kind of self-supporting FTTH Drop cable for aerial installation. This cable is in a figure 8 shape. The

Butterfly Flat FTTH Drop Cable | FS

Butterfly Flat FTTH Drop Cable - GJXFH GJXFH FTTH Indoor Drop Cable uses butterfly flat structure, whose optical fiber unit is positioned in the centre. Two parallel Fiber Reinforce Plastic (FRP)

GJYXCH Drop Fiber Optic Cable G.657A1 FTTH Butterfly Cable

The LF-087 GJYXCH series is a high-performance butterfly-type drop fiber optic cable designed for FTTH access. Featuring G.657A1 bend-insensitive fiber and optional LSZH/PE sheath, it ensures

Self-Supporting Butterfly Drop Cable (GJYXFCH)

DESCRIPTION (GJYXFCH) Indoor/Outdoor self-supporting butterfly drop cable, the optical fiber unit is positioned in the center. two parallel Fiber Reinforced Plastics (FRP) are placed at the two sides. a

GJYXFC Self-Supporting Drop Cable | FTTH / FTTB Indoor-Outdoor ...

GJYXFC optical cable is designed for access network applications. The communication unit is centrally positioned, flanked by two parallel non-metallic strength members (FRP) for durability.

FTTH – Round Drop Armoured Butterfly-Shaped Cable

FTTH – Round Drop Armoured Butterfly-Shaped Cable – 1-2 Fibres Briticom™ offers a wide range of indoor and outdoor fibre optic distribution, patching and
