

What model is the 4-circuit distribution box

Overview

The Suntree 4-Way IP40 Distribution Box is a durable and safe electrical enclosure designed to organize and protect multiple circuits. With its IP40-rated casing, transparent hinged cover, and DIN-rail compatibility, it's ideal for residential, commercial, and solar installations. But what exactly is a power distribution box, and why is it so essential in our daily lives?

The DB panel board controls the flow of electricity. This distribution board is designed to accommodate up to 4 circuit breakers, providing a safe and organized solution for distributing power within your. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices.
