

Wholesale Price of Construction Cable Trays in Ethiopia

AI Overview

Wholesale prices for construction cable trays in Ethiopia start around \$0.80 per meter for galvanized perforated steel trays at large volumes, with higher costs for stainless steel or FRP options.

Price Overview

- Galvanized perforated steel trays:** Approximately \$0.80 per meter for bulk orders exceeding 10,000 meters, making them the most cost-effective option for large-scale industrial projects.
- Stainless steel 316 trays:** Higher upfront costs due to superior corrosion resistance, suitable for critical infrastructure like substations or coastal installations.
- FRP (Fiberglass-Reinforced Polymer) trays:** Mid-range pricing, ideal for chemical plants or areas requiring fireproof and acid-resistant solutions.
- Aluminum alloy trays:** Powder-coated options are available for Class A fire rating and moderate corrosion resistance, generally priced above galvanized steel.

Factors Affecting Wholesale Prices

- Material type:** Steel is cheapest, followed by aluminum and FRP; stainless steel is the most expensive.
- Volume:** Bulk purchases significantly reduce per-meter costs.
- Import duties:** Imported trays face 15-20% additional costs due to customs.
- Local manufacturing:** Limited in Ethiopia; over 85% of cable trays are imported, mainly from China (72%), India (15%), and Turkey (8%).
- Compliance:** Products must meet ESA SES 501:2015 (structural safety) and ET-NFC 2015 (fire code) standards, which can influence supplier selection and pricing.

Supplier Options

- NAHMA Precision Metal Products:** Offers ladder-type and perforated trays with custom solutions in Addis Ababa.
- Brilltech Engineers Pvt. Ltd.:** Provides standard and customized cable trays, including PVC, mild steel, perforated, and stainless steel options.
- Micro Sheet Crafts:** Supplies modular and high-quality cable trays with competitive pricing and customization.
